CAREER SUMMARY:

Frontend-focused Software Engineer with 4 years of experience building scalable SaaS, fintech, and Shopify applications. Specialized in React, Next.js, and frontend architecture for SaaS platforms, with proven expertise in performance optimization, authentication, and payment integrations. Strong collaborator with experience working directly with clients, delivering production-ready applications, and improving product performance for global platforms.

WORK EXPERIENCE:

JoulesLabs

Software Engineer | January, 2022 – Present

- Designed and developed high-performance web applications using Next.js, React, TypeScript, and Tailwind CSS.
- Architected frontend solutions for SaaS products, including modular UI design, workspace management, and role-based access control.
- Spearheaded Shopify app development, ensuring compliance with Shopify App Store standards (performance, UI/UX, clean code).
- Implemented secure authentication and Stripe payment systems across fintech and SaaS applications.
- Optimized Core Web Vitals (CLS, LCP), enhancing performance and accessibility.
- Collaborated with clients and cross-functional teams to deliver tailored business-driven solutions.

KEY PROJECTS:

- Timetics (Booking SaaS App)** | Next.js, Tailwind CSS, Shadcn/UI, Zustand, React Query, React Flow, Payment Gateways
 - Developed multi-view calendars (daily, weekly, monthly) with real-time event updates, complex project sections, and workflow automation.
 - Built workspace management, authentication, and secure booking workflows, including payment gateway integration for multi-tenant clients.
 - Engineered embeddable iframe calendar widgets with analytics dashboards and optimized performance using Zustand and responsive UI components.
- ReviewXpo (Shopify App)** | Shopify, Next.js, TypeScript, Tailwind CSS, React Query/TanStack
 - Implemented review import, AliExpress scraping, AI-powered auto-replies, and review management
 - Replaced slow iframe widgets with Vite JS bundles, reducing load times and avoiding CSS/JS conflicts.
 - Achieved Shopify App Badge recognition.
 - Optimized performance: reduced Largest Contentful Paint (LCP) by 50%, Cumulative Layout Shift (CLS) by 90%, and minimized API calls for faster response times.
- FundedNext (Trading Platform)** | Next.js, Material UI, Redux, Stripe
 - Built data visualization dashboards with ApexCharts for complex trading insights.
 - Developed authentication, authorization, and payment features with Stripe.

TECHNICAL SKILLS:

- Programming Languages:** JavaScript (ES6+), TypeScript, HTML5, CSS3, Liquid
- Frameworks & Libraries:** React.js, Next.js, Redux, Zustand, React Query, Tailwind CSS, Shadcn/UI, Material-UI, Jest
- Build & Development Tools:** Vite, Webpack, Babel, ESLint, Prettier, Git, GitHub Actions, CI/CD Pipelines
- Platforms & Cloud:** Shopify App Development, Node.js, REST APIs, GraphQL, Vercel, Netlify
- Core Competencies:** Frontend Architecture, Performance Optimization (Core Web Vitals), Code Splitting, Authentication (JWT/OAuth), Agile/Scrum

EDUCATION:

Bangladesh University of Business & Technology (BUBT) | 2017 – 2021

B. Sc. in Computer Science and Engineering (CSE)

ACHIEVEMENTS:

- Awarded **Employee of the Year** and multiple **Employee of the Month** recognitions at Jouleslabs.
- Earned HackerRank Certificate in Javascript
